

Hi,
Welcome to our first email newsletter. We are looking to inspire you by providing photos and information on our ever expanding range of natural cut stone.

By far our most popular paving stone is the Granite 'Silver Gull' and if you drop into our Showroom you'll see why. It is an exceptional five-star rated grey granite with attractive white veining, suitable for the most demanding commercial or residential applications. Available in sizes 600x600x30mm & 400x400x30mm, each with bull nose edging in the same sizes for pool coping and steps.

To see Granite 'Silver Gull', visit our Showroom in Prospect or contact our specialist staff to talk about your stone and paving requirements.
