Honed 600 x 600 x 12mm Tiles

Admired for its beauty and fine grain, basalt has been used by artisans for thousands of years. A versatile option, predominantly charcoal coloured, these tiles will enhance any contemporary colour scheme.

Although colour variation is an intrinsic characteristic of any natural stone, this batch of Basalt Dawn Grey was sourced from a darker section of the quarry, hence the name. It is for that reason, that this is a limited stock item, contact us to check quantities.
